PROFESSIONAL SUMMARY

Passionate Frontend Developer dedicated to crafting seamless and engaging user experiences. With 2.9 years of hands-on experience, I excel in translating design concepts into responsive, interactive, and visually appealing web applications. Skilled in HTML, CSS, and JavaScript, I specialize in leveraging modern libraries like React.js to create dynamic interfaces that captivate users.

SKILLS

Languages: JavaScript(ES6+)
Technologies/Libraries: ReactJs, HTML5, CSS3, Tailwind CSS, React-Router, Redux-Toolkit, Material-UI, NodeJs, ExpressJS, MongoDB, DOM Manipulation, GraphQL
Developer Tools: VS Code, Git, Postman
Soft Skills: Teamwork and Collaboration, Problem Solving, Communication Skills, Continuous Learning.

EXPERIENCE

FrontEnd Developer at TCS (Digital Cadre) | Reactjs, JavaScript, Redux-Toolkit **Dec 2021 - Present**

- Collaborated closely with senior team members, gaining a deep understanding of the codebase and requirements, and consistently provided valuable support.
- Responsible for the logical part of frontend development such as API integration, implementation of new features, reusable components, and bug fixes.
- Designed responsive web applications with JavaScript, integrating React higher-order components and custom hooks for enhanced code reusability and seamless user interactions.
- Translated designs to fully responsive and modular front-end code.
- Collaborated with senior developers to troubleshoot and resolve coding issues.
- Seamlessly implemented Bar and Pie chart, elevating user experiences with enhanced functionalities.
- Tested site compatibility across multiple browsers and devices, uncovering and debugging issues and addressing inconsistencies.
- Enhanced code efficiency by working on REST APIs with backend team.
- Worked in Agile, collaborating with diverse teams to ensure efficient and iterative project development.

PERSONAL PROJECTS

Netflix-GPT Live ○ | React, React-router, Redux-toolkit, Firebase, Tailwind CSS

- Fused GPT technology into Netflix for tailored movie suggestions using **OpenAI's** recommendations, powered by **Firebase's** secure sign-in features and Tailwind CSS for responsive and modern styling.
- **Conditional Rendering** to load Browse movie page and GPT search page.
- Used React **Router Library** to set up routes in application and redirects users to appropriate pages.

Youtube Clone Live ○ | React, React-router, Redux-toolkit, Tailwind CSS

- Developed a scalable and performant video streaming app powered by **YouTube's Live API.**
- Implemented **Live chat** using **API polling.**
- Implemented **Debouncing** for dynamic search and optimized it by storing results in the **Cache using Redux.**

EDUCATION

VPKBIET, Baramati   **2016 − 2020**
*B. E. - Civil Engineering - **CGPA** - **8.6***   *Baramati, Maharashtra*
